

Important Safeguards

THIS HEAT MAT IS DESIGNED TO BE USED WITH GLASS ENCLOSURES ONLY!

To guard against injury, basic safety precautions should be observed, including the following:

1. Read and follow all safety instructions and important notices in these instructions as well as on the product itself.
2. This appliance is not intended for use by children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.
3. For each of the following situations do not attempt repairs yourself. Return the appliance to an authorised service facility for service or discard the appliance.
 - a. If the appliance or any electrical component of the appliance (non-immersible equipment only) falls into water or gets wet, do not reach for it. Unplug it and then retrieve it.
 - b. Carefully examine the appliance after installation. It should not be plugged in if there is water on parts which are not intended to be wet.
 - c. Do not operate the appliance if it has a damaged cord or plug, or if it is malfunctioning, or dropped or damaged in any manner.
4. Always unplug the appliance from the electrical outlet when not in use, before putting on or taking off parts, before any type of maintenance or cleaning.
5. Never yank the cable to pull it from the socket. Pull the plug carefully to disconnect.
7. Do not use the appliance for reasons other than the intended use. The use of attachments that are not recommended or sold by the manufacturer may cause the product to be unsafe. This is not recommended.
8. Do not install or store the appliance where it will be exposed to weather or temperatures below freezing.
9. Make sure any component mounted on a tank is securely installed before operating it.
10. Ensure input voltage is the same voltage as your local power supply.
11. If an extension cable is used it should have the proper rating. Care should be taken to arrange the cord so that it will not be tripped or pulled.
12. A G.F.C.I (Ground fault circuit interrupter) & surge protector is recommended for all electrical appliances.

13. Ensure your hands are dry when turning the power switch on/off and when inserting/removing the power cable from the socket.

14. If you are in any doubt about the electrical installation or safety of this product you must consult a qualified electrician.

All products are supplied with fitted plugs. This plug should not be tampered with in any way or removed. Removal or tampering with the plug voids the guarantee offered with this product.

For UK a 3 pin adaptor is supplied with the product and this must be used.

Disposal of used Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems)

This symbol on the product or on its packaging indicates that the product must not be disposed of with normal household waste. Instead, it is your responsibility to dispose of your waste equipment by arranging to return it to a designated collection point for the recycling of waste electrical and electronic equipment. By separating and recycling your waste equipment at the time of disposal you will help to conserve natural resources and ensure that the equipment is recycled in a manner that protects human health and the environment. For more information about recycling this product, please contact your local city office, your household waste disposal service or the shop where you have purchased the product.

Before First Use / Preparation

Read and follow all the instructions, even if you feel you are familiar with the product and find a place to keep the instructions handy for future reference. Your attention is drawn particularly to the sections concerning "IMPORTANT SAFEGUARDS" and the "GUARANTEE CONDITIONS". Please ensure you retain your original purchase receipt in the event that guarantee service is required.

Carefully unpack the product making sure you keep all the packing material until all the parts of the product have been found and the product has been assembled.

This product is shipped to you in a factory sealed carton. Should the product malfunction in any way or if the unit is damaged and requires replacement, contact the retailer where the product was purchased for inspection.

Installation

1. Reptile One Heat Mats are supplied with plastic stick-on feet.
2. Remove the feet from the paper and attach them to the corners of the enclosure. The 14 and 20W models are supplied with 6 feet, the extra feet should be placed half way along each side of the enclosure.
3. Attach the mat under the enclosure in the desired location by taping the transparent edges of the mat to the underside of the enclosure and switch the mat on at the power outlet.
4. Monitor and conduct visual inspections of the heat mat daily for the first 3-5 days after installation to ensure heat mat is functioning properly.

Hints & Tips for Best Results

It is important that the heatmat does not cover more than 1/4 to 1/2 of the base area of the enclosure. In general, the larger the enclosure, the smaller the coverage area should be.

The mat should not be placed directly beneath another heat source such as a heat lamp.

Reptile One heat mats are designed to operate 24/7 to provide a thermal option for the reptile. All models include a built-in thermal cutoff which means the mat does not need to be run on a thermostat.

Ensure an adequate thermal gradient is provided in your environment design for the species being housed.

Model	Size	Recommended Enclosure Size
5W/240V	14 x 15cm	30 x 20cm
7W/240V	15 x 28cm	45 x 30cm
14W/240V	28 x 28cm	90 x 45cm
20W/240V	42 x 28cm	120 x 45cm
1W/12V	Ø 7cm	20 x 20cm
2.5W/12V	6 x 24cm	30 x 30cm
5W/12V	Ø 12cm	30 x 30cm
