

## Reptile One Magnetic Sliding Glass Door Lock

Next Best Thing to Nature...

The Reptile One Magnetic Sliding Door Lock helps keep reptiles secure while still providing easy access. No keys required! The internal magnet is simply positioned on the rear glass door and held in place with the adhesive strip (included). The external magnet can then be easily slid into place to secure the door, or removed to slide the doors open.

**Suitable for: Terrarium/Vivariums with Glass Doors.**

### Features & Benefits

- Strong magnets
- Easy to attach
- Stylish black design
- No keys required!
- Quick and simple to use
- Prevents reptiles from getting out

### Product Price

Item Code	Description	Dimensions	R.R.P
46630	Reptile One Magnetic Sliding Glass Door Lock	6cm (L) X 2.5cm (H)	\$12.95

### Notes, Hints & Tips

#### Installation:

1. Position the internal magnet on the rear glass door as shown using the adhesive strip.
2. Once the doors are closed, lock them by attaching the external magnet to the front door in the same relative position as the internal magnet.
3. To unlock, simply remove the external magnet.

#### Warnings & Disclaimers:

- When positioning the magnet, place it on the glass at least 10cm away from the internal magnet and slide it into place. Due to the strength of the magnet, if you place the outer piece directly over the inner piece, it may cause damage to the glass due to the impact.
