

Stick Insect Stump & Plant Bowl

Next Best Thing to Nature...

This natural looking Reptile One ornament provides a climbing environment for stick insects whilst supplying water to keep the insect's food (i.e. the leaves) fresh. They will love this replicated habitat where "fresh food" is available.

Suitable for: Phasmids (stick insects) and Arboreal insects such as Praying Mantis

Features & Benefits

- Natural looking stump & branch
- Plant bowl (to fill with water) for the use of keeping live plants fresh
- Perfectly sized to suit most stick insect cages
- Creates a natural look
- Provides a natural climbing environment
- Keeps live plants fresh by placing into the water bowl
- Great place for your stick insect to hang out

Product Price

Item Code	Description	Colour	Dimensions	R.R.P
30319	Stick Insect Stump & Plant Bowl	Dark Grey / Dark Green	17.5W x 10D x 8cm H	\$19.95

Notes, Hints & Tips

1. Fill the water bowl and place the stump over the top of the bowl.
2. Place fresh plant branches with leaves into the bowl.
3. Ensure the correct type of fresh leaves are provided for the insect and that there is always sufficient water in the bowl.
4. It is recommended that the bowl is rinsed prior to being refilled.
