## RTF Low Height Terrarium

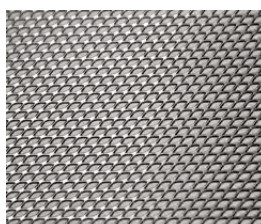

Reptile One's RTF low height terrariums are low profile and are not only perfect for terrestrial reptiles but a space saving solution for your living space. The low height enhances the ability of UVB light absorption by your reptile due to the reduced distance.

### Suitable for Geckos & Skinks

#### Features & Benefits:

- The low height enhances the ability of UVB light absorption by your reptile due to the reduced distance.
- Super fine, high strength, high quality wire mesh top for better ventilation.
- Cable outlet dial enables electrical items to be used.
- Pre-cut holes in the wire mesh top for heating and lighting accessories to fit neatly within the enclosure.
- Black background provides visual impact and psychological security for your reptile.
- Key lockable hinged doors for easy access and viewing pleasure.
- High quality materials and workmanship with 5mm glass thickness and aluminium extrusions for a durable design.
- Space saving solution for your living space.
- Matching ROC Cabinets available.

### Notes, Hints and Tips:

- Regular cleaning of your terrarium is recommended. When cleaning glass surfaces, **DO NOT** use harsh household cleaning chemicals as it may be harmful to your animal. We recommend using Reptile One Cage Cleaner (#46225 or #46227), a scientifically formulated combination of bio-degradable detergent and powerful anti-bacterial agents.

### Warnings & Disclaimers:

- Before you set up your RTF Enclosure, wipe it down with a damp cloth. Do **NOT** use any chemicals other than ones made specifically for reptile care.
- Regular maintenance of this product and components are required to keep your Reptiles healthy and equipment within guarantee.
- All Reptiles have specific requirements for their care. Please seek advice from your Reptile One retailer for correct care requirements and species compatibility.
- When placing decorations/ornaments in your terrarium ensure they are securely placed so that they cannot fall over.
