

S2M Melamine Vivariums

Reptile One's S2M Melamine Vivariums are designed for both arboreal and terrestrial reptiles.

The S2M features key lockable glass doors that offer a wide viewing area and easy access. The super fine mesh top provides ventilation and ensures the safety of your reptile.

The beautiful gloss black finish compliments modern decor, whilst the recessed roof panel partially conceals heating and lighting fixtures. The S2M is the first commercially available enclosure in Australia that features a partial glass base specifically designed for the safe use of heat mats within melamine enclosures.

Suitable for: Arboreal and Semi-Terrestrial Species

Features & Benefits:

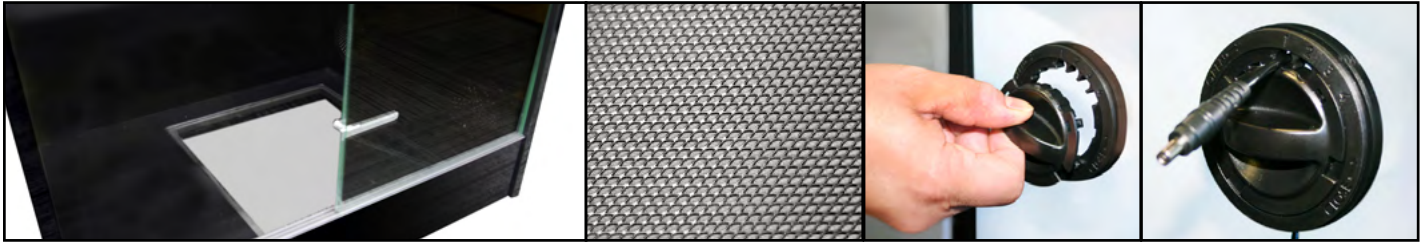

- Super fine, high strength, high quality wire mesh top.
- Air vents to provide efficient air flow.
- Recessed roof panel partially hides lighting appliances for a tidier look.
- High quality materials and craftsmanship.
- Key lockable glass sliding doors for easy access and viewing pleasure.
- Cable outlet dial enables electrical items to be used.
- A partial glass base that enables the safe use of heat mats.
- Easy to follow assembly instructions.
- Matching ROC Cabinets available.

Notes, Hints & Tips:

- Regular cleaning of your terrarium is recommended. When cleaning glass surfaces, do NOT use harsh household cleaning chemicals as it may be harmful to your animal. Visit your local pet store for "reptile or aquarium safe" cleaning agents. We recommend using Reptile One Enclosure Sanitiser to clean the inside of the enclosure (#46225 & 46227).

Warning and Disclaimers:

- All loads must be spread evenly throughout the enclosure to prevent glass base from cracking due to pressure points.
- **DO NOT** place another heat source directly above the glass base if a heat mat is being used with the glass base.
